PROJECTS

Bitcoin React landing page

- link: https://jovial-kashata-5b1bdd.netlify.app/
- Build a bitcoin landing page with react, also fetched real bitcoin stats data from an Api which shows the coin prices.

Netflix Clone

- link: https://guileless-banoffee-eac6a6.netlify.app/
- Netflix Clone. In this project I used React, Tailwind CSS and useContext api, I also retrieved live data containing movie details from the IMBD API. With this app I tried my best to give the user real Netflix experience with sign up functionality, bookmarking their movie of choice and add it to their profile and etc.

Food delivery front-end page

- .
